East Bali Tour

Tailored to the interests of individual guests, Amankila's East Bali Tour takes approximately three hours and includes the highlights of the region. With a private driver and guide, travel from the ancient village of Tenganan to the temples and royal palaces of the area, gaining insight into the region's royal past.

A delightful maze of pools and fountains surrounded by lush gardens, Tirta Gangga Water Palace is a one-hectare garden estate built in 1946 by the heir to the former Kingdom of Karangasem. Destroyed almost entirely by the eruption of Mount Agung in 1963, it has been carefully rebuilt and restored to its original splendour. Many beautiful stone carvings and statues adorn the gardens, but the centrepiece of the palace is without a doubt its eleven-tiered fountain.

East Bali is full of villages showcasing a way of life little changed over the centuries. None is more rooted in the past than the religious community of Tenganan, whose community still believe in its own divine origin. In this tiny society, clothing has always been central to religious ritual and today, families still painstakingly fashion double ikat cloth.

Balinese Celebrations

Experience a traditional blessing ceremony performed by Pak Mangku, our local priest, at Padmasan, Amankila's picturesque resort temple. The Hindu prayers that form the blessing ask for hope, physical strength and determination, ensuring the blessed can face all life's challenges with happiness and fortitude. At the close of the blessing, Pak Mangku will place a yarn bracelet around your wrist, to be worn as long as you desire.

Occasions when Balinese village communities come together to commemorate the establishment date of a temple, Odalan festivals are annual celebrations that contribute greatly to the rich traditions of Balinese theatre and dance. Conducted to ensure spiritual harmony and show gratefulness for blessings received, Odalans are relatively frequent, considering that each village is home to at least three temples. Celebrations include processions, street decorations, entertainment and dancing in temple courtyards.

Adventures on Water

Amankila's two traditional outriggers are available for guests to explore the wonders of the Lombok Strait. Guests can enjoy half day cruises to explore the local coast, or venture a little further afield to experience some of the best snorkelling and diving sites in East Bali, including Manta Point and Crystal Bay.

Bali is renowned for its spectacular surf breaks and year-round accessible waves, and Amankila has partnered with East Bali Surf and Sail to offer guests the finest surfing experience possible. Or take advantage of the typically calm mornings and head out directly from Amankila's beach on a Naish Stand-Up Paddleboard.

The Lombok Strait is one of the finest stretches of water for big game fishing in Bali. Whether you are a seasoned angler or a novice fisherman, Amankila's crew will show you the ropes in the resort's purpose-built boat. Or try traditional Jukung handline fishing from the shore. The thrill of hooking a rainbow runner is almost as great as hauling in a tuna on the deep sea experience.

Adventures on Land

From treks and cycle rides through the rice paddies at the foothills of the famed Mount Agung to adventurous ATV rides through the jungle and practices in mindfulness and yoga, Amankila provides guests with opportunities to explore the regency beyond the resort and see the natural environments of Bali through a different light.

Virtually all downhill, the Budakeling to Perasi cycling route starts with spectacular views of Mount Agung towering above. After a 45-minute drive from Amankila, set off on your mountain bike through picturesque rice fields, passing villages and witnessing day-to-day life. Expect to see blacksmiths at work, mud bricks being made, the threshing of rice, and more. After about an hour's ride, you will finish a 25 minutes' drive from Amankila.

A beautiful trek from Kastala to Tenganan involves several hills, rice fields and a rocky riverbed that is in full flow during the wet season. On this trek, you will visit some very isolated and 'time-forgotten' villages. The trek ends in the village of Tenganan, where you may want to bargain for exquisite basketry or the prized Geringsing ikat cloth.
