Frequently Asked Questions

We understand that you might have several burning questions. After all, we admire those who live with passion. Here is a set of questions and answers to help you know us better. Should you have any lingering thoughts or concerns, feel free to reach out to us.

1. Why do most of our packages not include albums?

While our available packages do not include albums, we include flashdisk and photo prints in a picturesque wooden box that we find more suitable to our market. However, we do provide the option of a photo album a-la-carte.

2. Why do we advise our clients to not bring a huge amount of gowns, especially ball gowns for a prewedding session?

We do not recommend so, because we do not want you to be overloaded with too much to bring and create a hassle during fitting, as it takes some time and we may miss the beautiful light from the golden hours of the sun. Apart from that, we find that your poses will be stiff and limited when wearing a gown. However, don't get us wrong, we do love gowns, but we'd rather one that won't overshadow you, because you make the chemistry (and not the gown).

3. Why is it best not to upload and share the unedited photos?

Because you have hired us as professionals to work on your images from start to finish, we would like to give you the final and best results from us.

4. Why do we not shoot during midday?

Midday is best spent for our couples to take a break and refresh after a long morning of shooting and chasing the rising sun. Apart from that, the midday light simply does not cast pretty shadows on our faces, this is why we avoid it in our images. However, if we spot a location with good lighting, we will not hesitate to let you know and have your picture taken whatever time of the day.

5. Will I be able to propose my own song for the Same Day Edit Video?

Yes, of course. But we may not guarantee the use of your selected song should the director and editor have another song that will be better suited to the edited scenes.

6. What is the difference between Social Media Trailer, Short Movie (Highlight), and a Long Movie (Full Day Video)?

A **Social Media Trailer** has a duration of 30 to 60 seconds with the best scenes that happened during your wedding day. We share this with you in 2 days after the wedding day, so that you will be able to spread your joy via your social media as soon as possible.

A **Highlight video** includes a compilation of the best scenes in a perfect duration that makes for comfortable viewing, of approximately 5 minutes.

Whereas a **Full Day video** has a duration of 20 minutes and covers the full event of your wedding day.

7. Why is the Long Movie video limited to 20 minutes only and not more?

Because we don't want you to be bored watching a movie that is simply too long, our directors will compose your story that is neither too short nor too long whilst still containing all the precious moments from your big day.
