*Curating Beautiful Weddings*

## CASABONO

specializes in planning your dream wedding and creating wedding concept designed especially for you. We believe that every couple has a story and each couple has unique taste and personality. It is our job to translate that and help you create a beautiful wedding.

We also help you plan your wedding budget, find the right vendors, and work together with those vendors to make sure all concepts and plans are translated and executed properly.

Other than creating mood board that gives vision and direction of the look and feel of your wedding, we will also give design references.

We are here to help create a memorable once in a lifetime event for you. We create a wedding concept for you, help you find the right vendors, plan your wedding, and style your wedding according to what you love.

As we only focus on the planning part, as well as design and aesthetics of your wedding, we do not work on technical and logistic of your big day, but we will work together with your wedding organizer to help translate what you need.

“and in everything we do,  
there is MAGIC”

## Understanding Your Needs

We would love to get to know you! In order to understand what you love for your wedding, what you like and dislike, we would like to get to know you from the very beginning to understand your taste, as well as the look and feel of the wedding you want. We would like to know your love story and help translate them as a part of your wedding.

We will help you sort through your ideas and inspirations, offer you guidance and translate them into a wedding that is beautiful, unique and truly you.

In this process, we will also discuss the budget of your wedding, where you might want to spend more and where you might want to save.

# Wedding Planning & Concept

After we understand your budget and preferences (likes and dislikes), we will create a presentation deck of your wedding concept, theme color, and design related element of your wedding for you to get an idea of what your special day will look like. This will also help give a clear direction to all wedding vendors we will be working with in terms of the wedding concept, mood, and feel.

We will help select the right vendor that suits your personality, budget, and wedding concept. We also deal with those vendors on your behalf in order to help you get the best deal. We will then prepare a spreadsheet for you and help you allocate your budget.

## Execution

Once you have approved the concept and design and your wedding vendors have been selected, we will be in touch with them on a regular basis to make sure that the concept design is properly communicated through detailed instruction and mock-up reviews. We will also help you track your budget vs. expense realization on a monthly basis to make sure you do not overspend.

## Your Wedding Day

On your big day, we will supervise the work of all design related vendors. We truly care about the small details and will make sure we do our best to execute everything according to the wedding concept.

We want to help you create the best wedding ever that is beyond your dreams and wishes.
