

#### THE VENUE

#### Grand Heritage Exclusive Experience

The heritage house of Jalan Sam Ratulangi No. 46, located strategically at the corner of Jl. Sam Ratulangi and Jl. Cemara, Menteng, has always been the center of focus of Jakartans who love old buildings and houses, as it is one of the very few original heritage houses left in Jakarta.

This Dutch colonial architecture-inspired house built in 1914 by its original owner, Meneer Van Der Tas, has been the center of happiness for families who lived here, including a famous royal Indonesian family.

The heritage house was renovated in 2017 but maintains its original majestic colonial architecture, including its beautiful marbles and roof, and is currently owned by a philanthropic couple who both are educators at the University of Indonesia and who have genuine and passionate love for Indonesia, its people, and the Indonesian culture.

Now, by invitation, Jakartans can personally experience and appreciate this "Historische Huis", with its newly renovated look and exotic Indonesian art works, by holding events in this house.
